Hockey is a dangerous sport. Participation can result in injury or death. All players agree to hold harmless Full Stride, its employees, subcontractors, and agents for any incident, accident, or occurrence arising from participation in this program.

THE PROGRAM

There's nothing cooler than heating up your game with the Full Stride Summer Hockey School! We offer a challenging yet fun experience for Mites, Squirts, Peewees & Bantams to improve their skating, stickhandling, shooting and game speed decision-making skills. Over five days your skater will be challenged on ice to develop quickness, agility and reaction skills, all while improving their fundamental hockey skills.

The Full Stride method relies on fun and engaging drills & games to educate students in the proper techniques of skating and puck control. Our experienced head instructors will be assisted by a team of junior instructors to provide a high degree of support for you child's learning and a low student-instructor ratio.

Students are divided into groups based on age and experience. All groups are co-ed and full equipment is required for every ice session. Sign your child up for the level they will play in '09-'10.
